

# FlexScan<sup>®</sup> T561 45 cm (17 inch) Class Color Monitor

Users seeking a sleek, high performance 17 inch monitor for CAD/CAM, high-end graphics, and text applications will find the FlexScan T561 to be the perfect choice. A fine dot pitch and high resolutions create a screen rich in precision, sharpness, and clarity. With this fully flat aperture grill CRT monitor, EIZO introduces a new serene gray casing color for a sophisticated blend of style and technology.

#### Features:

- Fine 0.25 mm aperture grill pitch.
- $\blacksquare$  Recommended resolution of 1280 imes 1024/89Hz.
- Brilliant colors and minimal geometric distortion with a fully flat tension mask CRT.
- EIZO's own fine contrast function and signal filters.
- Dual Inputs for simultaneous connection of two computers.
- ECO Circle 2000 and TCO'99 Compliant.

# FlexScan<sup>®</sup> 45 cm (17 inch) Class Color Monitor

# **Fully Flat Tension Mask CRT**

The T561's fully flat screen produces brilliant colors and bright images. The screen's ergonomic design in tandem with EIZO's Super ErgoCoat® assure geometric distortion is cut to a minimum, and reflection and glare are greatly reduced to prevent eye fatigue and stress.

#### **Dual Input Terminals**

For simultaneous connection of two computers, the T561 includes D-Sub and BNC × 5 input terminals. Both inputs also support Plug & Play (VESA DDC 2B) independently.

#### **Fine Contrast Function**

Fine contrast widens the dynamic range of the displayed image by approximately 20%. Separate text and picture modes enable customization for specific applications. This function also improves the contrast ratio for images displayed in grayscale mode.

#### **Signal Filters**

The signal filters compensate for problems such as smearing and ghosting caused by poor video signals from a graphics card. The filters take the video signals and raise them to the appropriate level to generate a crisp display of text and superior color reproduction.

# **Auto-Sizing**

The Auto-Sizing button located on the front bezel quickly readjusts the displayed image to the ideal screen size and position in the selected display mode.

# **TÜV ECO Circle 2000 Compliance**

The T561 meets the requirements for the new TÜV ECO Circle 2000 mark, Other rigorous standards the T561 complies with include TCO'99, the CE Mark, and the EPA ENERGY STAR® Program.

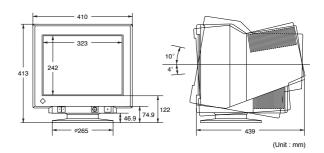

# FlexScan® T561 Specifications

	•
CRT Size	$45~\mathrm{cm}$ (17 inch) class, $90^\circ$ deflection Tension Mask
CRT AG Pitch	0.25 mm
CRT Surface	Super ErgoCoat®
Treatment	
Scanning Frequency	H: 30 - 96 kHz V: 50 - 160 Hz
Input Signals	RGB Analog
Input Terminal	D-Sub 15-pin and BNC × 5 (switchable)
Active Display Size	323 mm (H) × 242 mm (V) (Diagonal: 403 mm)
Recommended	$1280 \text{ dots} \times 1024 \text{ lines flicker-free at } 89 \text{ Hz (max.)}$
Resolution	(1600 dots $\times$ 1200 lines at 76 Hz addressable)
Screen Control	ScreenManager®, One Touch Auto Adjustment Function
	(Auto-Sizing)
Power Management	VESA DPMS
Power Consumption	110 W
Power Save Mode 1	Less than 10 W
Power Save Mode 2	Less than 3 W
(Off)	
Plug & Play1	DDC 2B
Dimensions	410 mm (W) × 413 mm (H) × 439 mm (D)
Net Weight	19.3 kg
Safety Standards	TÜV Rheinland/GS, CB, CE Mark
Ergonomic/Environ-	TÜV ECO Circle 2000, EPA ENERGY STAR® Program,
mental Standards	Energy 2000, TCO'99

<sup>1</sup>Only valid when computer system supports all Plug & Play functions (personal computer, graphics board, Windows® 95/98/2000). For more details, please refer to the Windows 95/98/2000, personal computer, and graphics board manuals or contact the manufacturers
